

TWILIGHT ACTIVITIES

IMAGINE YOUR GUESTS SURPRISE AFTER THEY HAVE BOARDED THEIR COACH TO GO TO A MYSTERY DESTINATION FOR DINNER.

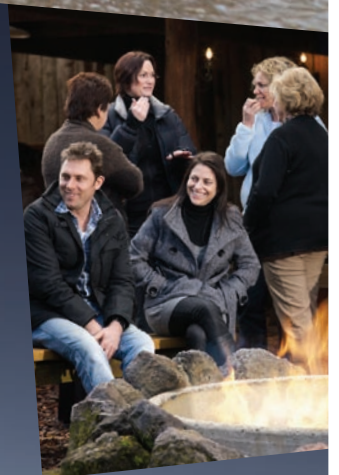

Having only been told to dress warmly and comfortably, a flicker of apprehension spreads through the crowd as they get further out of town and the coach drivers seem a little lost and unsure as to where they are going...

Your line of coaches pull into the Off Road NZ entrance and drive down a narrow winding track. With nothing but dark pasture on either side and no room for any other vehicle to pass, concern as to what is going on is starting to grow amongst the passengers. Trees have started to appear on the sides of the track and it is soon apparent the coaches have come the wrong way. Everyone is asked to exit the coach to let the drivers turn around in the paddock next to the road.

Somewhere in the darkness the sound of a cranking motor turns into the throaty rumble of a V8 motor. Off in the trees two more motors leap into life and all of a sudden the darkness is shattered as 20,000 watts of light illuminates the entire area. A bright red Jet Boat screams from behind an island as a matching pair of Monster 4x4's crawl down a nearby track towards you and your stunned colleague's.

Before anyone has a chance to think the first passengers are strapped into these amazing vehicles, the night's entertainment has arrived!

Off into the paddock a massive bonfire erupts into life. Simultaneously the lights from the Bush Camp bring the sights, sounds and aromas of dinner to your astonished guests. Waiters appear with drinks on trays, the Band springs into life...

...AN EVENING TO REMEMBER HAS BEGUN.
